PROFESSIONAL SUMMARY

Software Engineer specializing in backend architecture and full-stack development. Holds a Bachelor of Science in Computer Science from Government College University Faisalabad. Possesses hands-on experience engineering scalable RESTful APIs and robust web applications utilizing **NestJS**, **Node.js**, **TypeScript**, and **PostgreSQL/MongoDB**. Proven ability to communicate complex technical concepts effectively, seamlessly blending software engineering competencies with structured experience in technical and coding instruction.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, Python, C++
Backend Dev:	NestJS, Node.js, Express.js, REST API Design, Microservices Basics
Frontend Dev:	React, HTML5, CSS3, Responsive UI Design
Databases & ORMs:	PostgreSQL, MongoDB, TypeORM
Tools & DevOps:	Docker, Git, GitHub, Postman, CI/CD Concepts
Core Concepts:	Object-Oriented Programming (OOP), Data Structures & Algorithms, JWT Authentication, Role-Based Access Control (RBAC), File Processing (Multer)

TECHNICAL PROJECTS

CampusInsight — Final Year Project (Full-Stack)

Repository: github.com/abdulehman12/Campus-Insight

- Architected and developed a comprehensive campus information and career portal leveraging the MERN stack and NestJS ecosystem.
- Designed and implemented secure user authentication and granular role-based access control (RBAC) using JWT.
- Engineered modular, high-performance backend APIs using **NestJS** and **Node.js**, optimizing database schema layouts.
- Integrated a dynamic frontend with React and TypeScript, featuring clean layouts for job listings, admin dashboards, and secure resume uploads via Multer.

RESTful API Gateway & Backend Services

- Built a scalable, secure backend service architecture prioritizing data integrity, robust typing, and high API performance.
- Developed modular REST APIs using Node.js and Express.js, strictly implementing clean architecture principles.
- Secured business endpoints with industrial-standard JWT implementation, password hashing, and strict request validation middleware.
- Conducted rigorous API lifecycle testing, debugging, and schema documentation using Postman to guarantee seamless frontend integration.

Interactive React Web Applications

- Developed responsive, type-safe, and state-managed user interface components using React and TypeScript.
- Managed asynchronous data fetching, error handling, and state alignment to ensure real-time synchronization with external backend APIs.

CERTIFICATIONS

- **NestJS Framework Training** – LinkedIn Learning

PROFESSIONAL & TEACHING EXPERIENCE

Coding Instructor / Technical Communicator

Freelance / Academic Mentorship

- Translated intricate programming fundamentals, data structures, and object-oriented logic into simplified, highly interactive lessons for beginner-level students.
- Mentored aspiring developers in mastering core syntax and foundational architectural concepts across **Python, C++, and Web Development**.
- Utilized exceptional English communication and presentation skills to deliver structured code reviews, troubleshooting support, and feedback.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Graduated: 2026

Government College University Faisalabad (GCUF)
